

ALICE KINMAN'S HUSBAND GIVES CLUE TO SLAYER

Tells Detectives that the Murderer Was Probably a Former Sweet-heart of the Victim, Who Had Given Her Much Trouble.

Acting Capt. Price, in charge of the Bronx Detective Bureau, discovered a new clue in the Alice Kinman murder mystery this afternoon and put all his staff to work on it. He is of the opinion that Mrs. Kinman was killed by a former sweetheart, who had caused her trouble before.

Information to that effect was given to Detective-Sergeants O'Rourke and O'Neill by Richard Kinnan, the husband of the murdered woman, who lives in Belmont, N. J. He gave the name of a man he suspects and the name of a negro who is said to have seen the suspect in the vicinity of the old Stenton mansion within the past ten days.

The aged mother of Mrs. Kinnan, Mrs. Stenton, knew the man under suspicion and was friendly with him. Kinnan says that she would shield him if possible.

Since particular attention has been paid to her by the police authorities the old woman has become remarkably weak, physically and mentally. To-day she developed a hallucination that there is a plot on foot to poison her and refused to eat the food prepared for her in the house.

Advices Removal.

Dr. Joseph Dunn, of One Hundred and Ninety-eighth street and Webster avenue, for many years family physician to Mrs. Stenton, made a careful examination of her to-day at the request of the police and advised her removal from the old house. He said her condition was bad and that the surroundings tended to make it worse.

The police authorities are anxious to have Mrs. Stenton removed to a sanitarium or a hospital because of her interference, they have been unable to make a complete search of the house.

There is no longer any doubt about the way the murderer escaped. He did not enter the house by the front way, nor did he leave in that direction. The rear door of the house was always open, according to Mary Schippo, who lives in the basement and owns a boarding house. Capt. Price is now convinced that after the murder beat Mrs. Kinnan to death on the porch he ran through the house, out the back door, across the yard and disappeared before any one saw him. He is under the impression that Mrs. Stenton saw the assault, because when Mrs. Schippo reached the piazza, a few seconds after she heard Mrs. Kinnan drop, Mrs. Stenton was standing alongside the body and the front door was closed and locked.

Want to Find Daughter.

The police want to find Kinnan's daughter. This young woman, now more than twenty, is said to have been instrumental in separating Kinnan and his wife. She appeared for the first time when she came forward with a letter to Lawyer Burton W. Gibson, who represented Mrs. Stenton, mother of Mrs. Kinnan, saying that her father would gladly appear and aid in any way in solving the murder that was in his power.

From the first it has been the opinion of the police that Mrs. Kinnan was murdered with the lead pipe found near where she lay unconscious on the porch, but to-day the police doubt that the lead pipe was used as the death instrument. At the time of the finding of the pipe it was remarked that it was free of blood stains. The theory then was advanced that the heavy hair of the victim had probably soaked up the blood as blow after blow was rained on her head.

Detective-Sergeant Price has just discovered a blood-stained hatchet in the rear of the Stenton home. It is thought that this hatchet was used by the murderer.

Stories of Neighbors.

The police are now aware that whatever the motive for the murder, the assassin was known at the Stenton home. This belief has been strengthened by a late statement from Mrs. Schippo, the Italian woman who rents the basement of the Stenton house. Mrs. Schippo owns two dogs, Joseph Carpenter, the negro, who rents a small house in the Stenton yard, owns one dog. Both Mrs. Schippo and Carpenter were in their homes when Mrs. Kinnan was put to death. Both have told the police that they did not hear a sound while the young woman was being beaten to death on the porch. Mrs. Schippo has also told the police that at the very time the murder was being

committed the three dogs were playing in the front yard. The dogs did not bark, as they surely would have done had there been a stranger in the Stenton doorway.

On the theory that some person known to Mrs. Kinnan and her mother committed the murder the detectives have gone into the records of the Stenton family.

This revealed the fact that the estate in the Bronx where Mrs. Stenton lives has long been in litigation. She employed Burton W. Gibson as her attorney. When the law suit was finally settled she received a fee of \$25,000. Mrs. Stenton was said to be held by a trust company for her. One of the stories is that Mrs. Kinnan was bitterly opposed to Gibson and accused him of overcharging for his services. She and her mother are declared to have been friendly about him.

Lawyer Gibson's Explanation. Lawyer Gibson declared to an Evening World reporter to-day that there had never been the slightest unfriendliness or disagreement between him and Mrs. Stenton or Mrs. Kinnan.

"Why he said, I have an instrument drawn up and signed by both Mrs. Stenton and Mrs. Kinnan recognizing the validity of all the legal transactions conducted by me for them, reciting that everything was with their full knowledge and approval, that they were gratified with what I had done for them, and finally, that I had earned and was entitled to all the compensation I had received."

"How about the report that you received \$25,000 for work not worth \$100?" he was asked.

"That," he replied, "is not correct. We took the case on a contingent fee. It was not the case we would have received nothing."

"I spent about \$2,000 of my own money and three years of my own work. Out of the approximate \$25,000, several thousand dollars had to be deducted for expenses."

"But," he averred, "I think I know the source of some of these reports. They emanated largely from a man who attempted to break off the friendly relations of Mrs. Stenton and myself, as her attorney, and also tried to separate the old lady from a bunch of her money. After that, both women were very bitter toward the man."

"My relations with both were always pleasant. I have corresponded largely in which they always inquired after my family and always showed the greatest friendship."

Has a Rich Relative.

Mr. Gibson stated that Mrs. Stenton has a relative worth four or five million dollars, who is now here taking an interest in the case.

"He desires to remain in the background at present," said Mr. Gibson, "and I am not at liberty to give his name. I can say that all of Mrs. Stenton's relatives desire the speedy trial of the estate to be applied to her maintenance."

"I know nothing of reciprocal wills having been made by Mrs. Stenton and Mrs. Kinnan in favor of each other. Possibly when the house is searched they will find an unexecuted will in Mrs. Kinnan's own handwriting, leaving all her property to her mother."

When asked if he had any theory in regard to the murder, Attorney Gibson said that he had not.

"After investigating it as thoroughly as I could," he said, "I am as much in the dark as ever, and cannot come up with a motive. I do not believe Mrs. Stenton knows any more about the tragedy than she has already told."

TAFT GIVES DIPLOMAS TO WEST POINT CADETS.

WEST POINT, N. Y., June 12.—To-day was the most eventful of the whole year of cadet life at West Point. It marked the graduation of the first class and the beginning of two months' leave of absence for the third class. The first notable event of the day was the arrival of Secretary of War Taft. He was received by the booming of cannon and a blaring of trumpets. The Secretary, under the escort of the military staff and detachment of cavalry, was conducted to Gen. Miles' quarters where a brief reception was held.

This graduation exercises were held under a massive canopy of canvas in front of the library. Gen. Horacio Porter delivered the address to the graduates. Secretary Taft awarded the diplomas.

The honor men of the class were Harold S. Herrick, of Connecticut; William A. Johnson, New York; James J. Lovell, Arkansas; Frederick B. Downing, Virginia; Edwin L. Daley, Massachusetts; Henry H. Finch, Texas; Edward D. Ardrey, Nevada; Frederic E. Humphreys, New York; and Charles K. Rock, well appointed array.

S. S. BREMEN DUE TO-DAY.

The North German Lloyd line steamer Bremen, from Bremen and Cherbourg for New York, was in communication by wireless telegraph with the station on Nantucket Lightship when the vessel was 120 miles east of the light-house. The ship will probably reach her pier at about 8.30 P. M. to-day.

WOMAN DRINKS CARBOLIC ACID, DIES IN HOSPITAL

Mrs. Margaret McDonald Commits Suicide After Sending for Parents.

Mrs. Margaret McDonald, a beautiful brunette, one of the proprietors of Histed & Co.'s fashionable photograph gallery at No. 536 Fifth avenue, died to-day at Roosevelt Hospital from carbolic acid poisoning. The police report of the happening says that she took the poison with suicidal intent in her apartment in the Hotel St. James, at No. 109 West Forty-fifth street.

Mrs. McDonald was associated in the photograph business with E. W. Histed and had lived at the St. James for five years. Mr. Histed said this afternoon that she had been very ill with a nervous trouble for some months and had taken vast quantities of powders to induce sleep.

Two weeks ago she sent for her father and mother to Pittsburgh, and they went to live with her in the hotel. She was under the care of a physician and her condition was such as to cause alarm. Her mother found her to-day unconscious with burns on her lips. She was hurried to Roosevelt Hospital, a cab by advice of Dr. Birmingham, of No. 106 West Forty-fifth street, and died there a short time after admission.

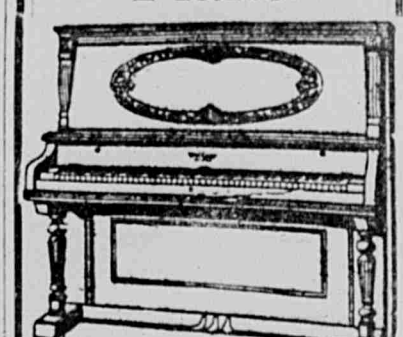

CRUISER READY TO SEIZE YANKEE SHIP.

WASHINGTON, June 12.—The United States cruiser Marblehead has the American steamer Empire cornered in the harbor at Corinto, Nicaragua, and the moment the little American vessel attempts to leave the Nicaragua coast it is believed the warship will seize it and bring it to account for the part played in assisting Guatemalan revolutionists.

Both the State and Navy Departments have been advised of the presence of

the warship and the steamer in the Nicaraguan port, and the Cabinet considered the case to-day and is believed to have decided upon punishing the American ship for its activity in the Central American revolution.

The Wolfner Piano

\$250
Bring the best musician you know and test what we claim for the *Tone, the Touch and the Workmanship* of the Wolfner.

No Money Down
\$1 a Week
No Interest.
No Extras.

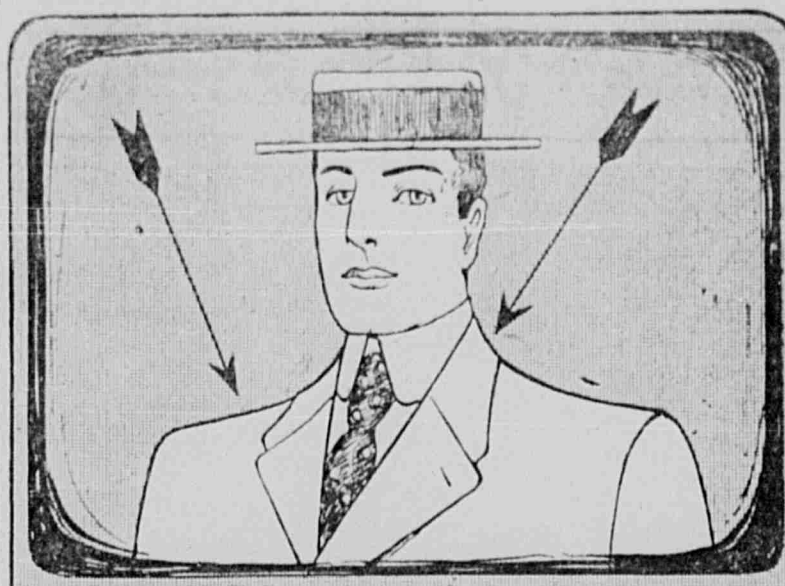

FREE Delivery, a revolving stool to match piano, a protection cover and a year's tuning. You have choice of mahogany, oak or walnut veneer.

We ask you to test our claim in every way you know.

If you are not yourself familiar with piano construction and with the points that go to make up piano character, bring the keenest critic you know and make us satisfy him.

Guaranteed for Ten Years.

Edison Phonograph

Balance Payable at \$1 a Week

With one of these wonderful Musical Instruments you can easily brighten and lend life to the lingering hours anywhere. You can entertain one or a roomful of people any time. These marvels of invention can sing, laugh, play and imitate with such realism that it is often actually difficult to realize that it is a machine—not a human voice or band.

Any moment you may listen to your favorite songs, for the new records embrace practically the entire range of music and include the best selections from Grand Operas, Comic Operas, Musical Comedies, as well as popular marches, ballads, coon songs and even ragtime. You can make your own records with the Edison and preserve the voices of your friends.

Victor Talking \$17 Machine, and up.

Edison \$10 Phonograph, and up.

Each Machine Fully Guaranteed (Siegel & Cooper Store, 3d Floor, Rear.)

ECZEMA SKIN RAW

ITCHING INTENSE

Eczema is a tormenting, stubborn disease caused by an acid humor in the blood, coming in contact with the skin and producing redness, inflammation and almost intolerable itching. An inactive state of the system and sluggish condition of the eliminative members leaves the waste and refuse matter of the body to collect and sour instead of passing them off through nature's channels of bodily waste. The blood in its efforts to purify the system of all foreign matter absorbs this acid and throws it off through the pores and glands of the skin. The acid humor seems to ooze out and set the skin on fire, the straw colored, sticky fluid drying and forming crusts, and the itching is intense. When these pustules are scratched off the skin is left raw and feverish and often a solid sore is formed and kept up by the constant escape of acids from the blood. Local applications of salves, powders, lotions etc., are desirable and should be used because they allay the itching and give the sufferer temporary comfort, but are in no sense curative, because they cannot reach the seat of the trouble, which is in the blood. S.S.S. goes down into the blood, cleanses the circulation of all acids and humors, builds up the thin, sour blood and by removing every vestige of the cause cures Eczema permanently. The irritating eruptions disappear, the itching and burning cease, and the acid-fired skin, being fed by a fresh, cooling stream of blood, becomes soft and smooth again. S. S. S. is made of healing, purifying roots, herbs and barks that will not damage any part of the system. Book on skin diseases and any medical advice free.

Prudence, Convenience--and Comfort

At three o'clock last Saturday afternoon the temperature in this store was nine degrees cooler and the humidity was twelve degrees less than outside. The store was perfectly comfortable, although it held one of our customary Saturday afternoon attendances that leave little space even in The Big Store's big acreage, and although the city as a whole was fairly sizzling.

We add to the attractions of safety and economy the attraction of comfort. We devote 125 electrical horse power to the work of drying, cooling and circulating air. The Big Store in Summer is as cool and airy as a wind-swept veranda on an Adirondack height.

CLEAN Things to Eat

Have you ever stood in an ordinary ground-floor grocery store on a windy day? Have you ever stopped to consider what the dust, that blew in plentifully, might contain? One reason why we put our grocery store on the fourth floor, instead of on the third, was because we wanted to get it as far above the street dust as we could. The wind can't blow street dirt up this high.

What you get here is pure and clean and fresh and good. This is more important even than the fact that you also get it cheaper than anywhere else.
